CONTENTS OF VOLUME 20

Volume 20, No. 1, 1988

Original Investigations

Metabolic, thermoregulatory, and psychophysiological responses during arm and leg exercise
James M. Pivarnik, Toni R. Grafner, and Eric S. Elkins 1

Physical fitness does not reflect activity patterns in middle-aged workers
John C. Sobolski, Jura J. Kolesar, Marcel D. Kornitzer, Guy G. De Backer, Zoltan Mikes, Michele M. Dramaix, Serge G. Degre, and Henri F. Denolin 6

Reliability and concurrent validity for a 7-d re-call of physical activity in college students
Rod K. Dishman and Mary Steinhardt 14

Effects of electrolyte and nutrient solutions on performance and metabolic balance
Herman L. Johnson, Richard A. Nelson, and C. Frank Consolazio 26

Exercise capacity and nitrogen loss during a high or low carbohydrate diet
Janet L. Walberg, V. Karina Ruiz, Sandra L. Tarlton, Dennis E. Hinkle, and Forrest W. Thye 34

Meal-induced thermogenesis following exercise training in the rat
Roger B. McDonald, Steve Wickler, Barbara Horwitz, and Judith S. Stern 44

Effects of low- and high-repetition resistive training on lipoprotein-lipid profiles
P. F. Kokkinos, B. F. Hurley, P. Vaccaro, J. C. Patterson, L. B. Gardner, S. M. Ostrove, and A. P. Goldberg 50

Differential effects of exercise intensity on serum uric acid concentration
Howard J. Green and Ian G. Fraser 55

Reproductive hormonal profiles of endurance-trained and untrained males
A. C. Hackney, W. E. Sinning, and B. C. Bruot 60

Hydrostatic weighing without head submersion: description of a method
Joseph E. Donnelly, Thomas E. Brown, Richard G. Israel, Stephanie Smith-Sintek, Kevin F. O'Brien, and Bret Caslavka 66

Manual wheelchair propulsion: effects of power output on physiology and technique
L. H. V. van der Woude, K. M. M. Hendrich, H. E. J. Veeger, G. J. van Ingen Schenau, R. H. Rozendal, G. de Groot, and A. P. Hollander 70

Effects of fatigue on activation profiles and relative torque contribution of elbow flexor synergists
Mark D. Grabiner, Rick N. Robertson, and Kevin R. Campbell 79

Overload protection: avoidance response to heavy plantar surface loading
Steven E. Robbins, Adel M. Hanna, and Gerard J. Gouw 85

Effects of electrical muscle stimulation combined with voluntary contractions after knee ligament surgery
Ingrid Wigerstad-Lossing, Gunnar Grimby, Torsten Jonsson, Bengt Morelli, Lars Peterson, and Per Renström 93

Training effects of sub-maximal electrostimulation in a human muscle
Jacques Duchateau and Karl Hainaut 99

Information for Authors i

Policy Statement Regarding the Use of Human Subjects and Informed Consent v

Volume 20, No. 2, 1988

Original Investigations

Effect of pre-exercise fructose ingestion on endurance performance in fed men
Goroh Okano, Hidekatsu Takeda, Isao Morita, Mitsuru Katoh, Zuien Mu, and Shosuke Miyake 105

Effects of carbohydrate ingestion on gastric emptying and exercise performance
J. B. Mitchell, D. L. Costill, J. A. Houmard, M. G. Flynn, W. J. Fink, and J. D. Beltz 110

Iron deficiency in female athletes: its prevalence and impact on performance
William L. Risser, Eva J. Lee, Hally B. W. Poindexter, M. Stewart West, James M. Pivarnik, Jan M. H. Risser, and James F. Hickson 116

Increase in serum parathyroid hormone levels after prolonged physical exercise
Sverker Ljunghall, Henrik Joborn, Lars-Eric Roxin, Einar T. Skarfors, Leif E. Wide, and Hans O. Lithell 122

Coronary and cardiac responses to exercise after chronic ventricular sympathectomy
Patricia A. Gwirtz, Howard J. Mass, J. Robyn Strader, and Carl E. Jones 126

Effect of arm training on central and peripheral circulatory function
Mark Loftin, Richard A. Boileau, Benjamin H. Massey, and Timothy G. Lohman 136

Intra-arterial and cuff blood pressure responses during incremental cycle ergometry
Terry E. Robinson, Darryl Y. Sue, Andrew Huszczuk, Daniel Weiler-Ravell, and James E. Hansen 142

Resistive training can reduce coronary risk factors without altering $\dot{V}O_{2max}$ or percent body fat
B. F. Hurley, J. M. Hagberg, A. P. Goldberg, D. R. Seals, A. A. Ehsani, R. E. Brennan, and J. O. Holloszy 150

Responses of older and younger women to exercise in dry and humid heat without fluid replacement
W. Larry Kenney and Ruth K. Anderson 155

Age-related changes in speed of walking
Joan E. Himann, David A. Cunningham, Peter A. Rechnitzer, and Donald H. Paterson 161

Effects of extremity loading upon energy expenditure and running mechanics
Alan D. Claremont and Susan J. Hall 167

Conditioned patellar tendon reflexes in sprint- and endurance-trained athletes
David M. Koceja and Gary Kamen 172

Load- and skill-related changes in segmental contributions to a weightlifting movement
Roger M. Enoka 178

Analysis of wheelchair track performances
Kenneth D. Coutts and Robert W. Schutz 188

Intra-abdominal and intra-thoracic pressures during lifting and jumping
Everett A. Harman, Peter N. Frykman, Elizabeth R. Clagett, and William J. Kraemer 195

Maxillofacial and dental ice hockey injuries
Juha Sane, Pekka Ylipaavalniemi, and Heikki Leppänen 202

Serum erythropoietin in cross-country skiers
Bo Berglund, Gunnar Birgegård, and Peter Hemmingsson 208

Letter to the Editor-in-Chief

Letter to the Editor-in-Chief
David Docherty 210

Response
Thomas W. Rowland 211

Erratum 211

Volume 20, No. 3, 1988

Brief Review

A pictographic essay on blood and tissue oxygen transport
W. N. Stainsby, B. Snyder, and H. G. Welch 213

Original Investigations

Acute effects of exercise intensity on appetite in young men
Deborah A. Thompson, Larry A. Wolfe, and Roelof Eikelboom 222

Metabolic and blood catecholamine responses to exercise during alkalosis
P. Bouissou, G. Defer, C. Y. Guezennec, P. Y. Estrade, and B. Serrurier 228

Effect of carbohydrate and vitamin B_6 on fuel substrates during exercise in women
Melinda M. Manore and James E. Leklem 233

Creatine kinase and muscle soreness after repeated isometric exercise
Philip Triffletti, Paul E. Litchfield, Priscilla M. Clarkson, and William C. Byrnes 242

Effects of repeated days of intensified training on muscle glycogen and swimming performance
David L. Costill, Michael G. Flynn, John P. Kirwan, Joseph A. Houmard, Joel B. Mitchell, Robert Thomas, and Sung Han Park 249

Physiological responses to successive days of intensive training in competitive swimmers
John P. Kirwan, David L. Costill, Michael G. Flynn, Joel B. Mitchell, William J. Fink, P. Darrell Neufer, and Joseph A. Houmard 255

Effect of 6 d of exercise training on responses to maximal and sub-maximal exercise in middle-aged men
Marc A. Rogers, Chikashi Yamamoto, James M. Hagberg, Wade H. Martin, III, Alia A. Ehsani, and John O. Holloszy 260

Physiological responses to walking with hand weights, wrist weights, and ankle weights
James E. Graves, A. Daniel Martin, Lenora A. Miltenberger, and Michael L. Pollock 265

Hemolysis during triathlon races: its relation to race distance
Mary L. O'Toole, W. Douglas B. Hiller, Melinda S. Roalstad, and Pamela S. Douglas 272

Exercise-induced changes in populations of peripheral blood mononuclear cells
Patricia A. Deuster, Ann M. Curiale, Michael L. Cowan, and Fred D. Finkelman 276

Aging and the effect of increased afterload on left ventricular contractile state
Michael Sagiv, Ehud Goldhammer, Edward G. Abinader, and Jacob Rudoy 281

Antagonist muscle activity during stretching: a paradox re-assessed
Bruce R. Etnyre and Lawrence D. Abraham 285

Vertical and radial motions of the body during the take-off phase of high jumping
Jesús Dapena and Chul Soo Chung 290

Sub-cutaneous fat thickness measured by magnetic resonance imaging, ultrasound, and calipers
P. A. Hayes, P. J. Sowood, A. Belyavin, J. B. Cohen, and F. W. Smith 303

Iowa wrestling study: cross-validation of the Tcheng-Tipton minimal weight prediction formulas for high school wrestlers
Robert A. Oppliger and Charles M. Tipton 310

Letter to the Editor-in-Chief

Eileen M. Cullinane, Steven Siconolfi, Richard A. Carleton, and Paul D. Thompson 317

Volume 20, No. 4, 1988

Original Investigations

Implications of exercise testing for prediction of athletic performance: a contemporary perspective
Timothy D. Noakes 319

The work of walking: a calorimetric study
Paul Webb, Wim H. M. Saris, Paul F. M. Schoffelen, Gerrit J. Van Ingen Schenau, and Foppe Ten Hoor 331

Muscle hypertrophy in men and women
Kirk J. Cureton, Mitchell A. Collins, David W. Hill, and Fayette M. McElhannon, Jr. 338

Characterization of muscles injured by forced lengthening. I. Cellular infiltrates
William T. Stauber, Valerie K. Fritz, Daniel W. Vogelbach, and Burkhardt Dahlmann 345

Characterization of muscles injured by forced lengthening. II. Proteoglycans
Valerie K. Fritz and William T. Stauber 354

The effects of strength training in patients with selected neuromuscular disorders
Neil McCartney, Dianne Moroz, Scott H. Garner, and Alan J. McComas 362

Menarche in athletes: the influence of genetics and prepubertal training
Joel M. Stager and Linda K. Hatler 369

Physical performance and physiological responses following 60 hours of sleep deprivation
J. D. Symons, T. VanHelder, and W. S. Myles 374

Effect of opioid antagonism on esophageal temperature during exercise
Martin P. Schwellnus and Neil F. Gordon 381

Cardiovascular and thermal responses of triathlon performance
Richard B. Kreider, Tommy Boone, Walter R. Thompson, Scott Burkes, and Charles W. Cortes 385

Contraction-induced potentiation of human motor unit discharge and surface EMG activity
Shuji Suzuki, Koji Kaiya, Shiroh Watanabe, and Robert S. Hutton 391

The influence of construction strategies of sprung surfaces on deformation during vertical jumps
B. M. Nigg, M. R Yeadon, and W. Herzog 396

A method for the assessment of area-elastic surfaces
M. R. Yeadon and B. M. Nigg 403

Mood disturbance following increased training in swimmers
William P. Morgan, David L. Costill, Michael G. Flynn, John S. Raglin, and Patrick J. O'Connor 408

Letters to the Editor

Letter to the Editor-in-Chief
Gail Butterfield 415

Response
Peter W. R. Lemon 416

Letter to the Editor-in-Chief
James F. Clapp, III 417

Response
Albert M. Paolone 417

Letter to the Editor-in-Chief
Linn Goldberg, Diane L. Elliot, and Kerry S. Kuehl 418

Response
Ben Hurley, Peter Kokkinos, and Andrew Goldberg 419

Letter to the Editor-in-Chief
David C. Poole and Brian J. Whipp 420

ACSM Opinion Statement on Physical Fitness in Children and Youth 422

Information for Authors i

Policy Statement Regarding the Use of Human Subjects and Informed Consent v

Volume 20, No. 5, 1988

Announcement ... 425

J. B. Wolffe Memorial Lecture

Contributions of epidemiology to exercise science and cardiovascular health
Ralph S. Paffenbarger, Jr. ... 426

Brief Reviews

Interactions of exercise, coagulation, platelets, and fibrinolysis—a brief review
Raymond E. Bourey and Samuel A. Santoro ... 439

The effect of antihypertensive medications on exercise performance: a review
Thomas W. Chick, Alan K. Halperin, and Edward M. Gacek ... 447

Original Investigations

Exercise modality and selected coronary risk factors: a multivariate approach
Chin-Lung Fang, W. Michael Sherman, Stephen F. Crouse, and Homer Tolson ... 455

Cardiorespiratory fitness in highly active versus inactive paraplegics
Glen M. Davis and Roy J. Shephard ... 463

Decreased insulin response to sustained hyperglycemia in exercise-trained rats
Peter A. Farrell ... 469

Physiological responses to treadmill exercise in females: adult-child differences
Thomas W. Rowland and Gerald M. Green ... 474

A comparison of energy expenditure during rowing and cycling ergometry
Fredrick C. Hagerman, Roy A. Lawrence, and Mickey C. Mansfield ... 479

Body composition analysis by bioelectrical impedance: effect of skin temperature
John R. Caton, Paul A. Molé, William C. Adams, and Douglas S. Heustis ... 489

Wheelchair racing: effects of rim diameter and speed on physiology and technique
L. H. V. van der Woude, H. E. J. Veeger, R. H. Rozendal, G. J. van Ingen Schenau, F. Rooth, and P. van Nierop 492

Etiologic factors associated with selected running injuries
Stephen P. Messier and Kathy A. Pittala ... 501

The shock attenuation role of the ankle during landing from a vertical jump
Ted S. Gross and Richard C. Nelson ... 506

Effects of shoe type on cardiorespiratory responses and rearfoot motion during treadmill running
Joseph Hamill, Patty S. Freedson, Wanda Boda, and Frieda Reichsman ... 515

Volume 20, No. 5 (Supplement), 1988—Special Symposium Issue

Maximal Muscle Blood Flow during Contractions, *in Situ* Compared to *in Vivo*
Chairperson: W. N. Stainsby

Muscle blood flow in humans: how high can it go?
Loring B. Rowell ... S97

Skeletal muscle blood flow in exercising dogs
Timothy I. Musch ... S104

Maximal blood flow and power output of dog muscle *in situ*
W. N. Stainsby and G. M. Andrew ... S109

Physiological determinants of $\dot{Q}_{max}$ in contracting canine skeletal muscle *in situ*
J. K. Barclay ... S113

Magnitude and distribution of muscle blood flow in conscious animals during locomotory exercise
R. B. Armstrong ... S119

Blood flow to different rat skeletal muscle fiber type sections during isometric contractions *in situ*
Ronald L. Terjung and Brenda Mackie Engbretson ... S124

Physiological Responses and Adaptations to Resistance Exercise
Chairperson: James A. Vogel

Introduction to the symposium: physiological responses and adaptations to resistance exercise
James A. Vogel ... S131

Skeletal muscle adaptations consequent to long-term heavy resistance exercise
Per A. Tesch ... S132

Neural adaptation to resistance training
Digby G. Sale ... S135

Cardiovascular adaptations to resistance training
Steven J. Fleck ... S146

Endocrine responses to resistance exercise
William J. Kraemer S152

Metabolic consequences of resistive-type exercise
Gary A. Dudley S158

Implications for connective tissue and bone alterations resulting from resistance exercise training
Michael H. Stone S162

Human Responses and Adaptability to Cold Stress
Chairperson: T. E. Graham

Introduction: human responses and adaptability to cold stress
T. E. Graham S169

The effect of body cooling on oxygen transport during exercise
David R. Pendergast S171

Tissue heat transfer in water: lessons from the Korean divers
Donald W. Rennie S177

Thermal, metabolic, and cardiovascular changes in men and women during cold stress
T. E. Graham S185

Factors affecting cold acclimation and thermogenesis in man
Jacques LeBlanc S193

Volume 20, No. 6, 1988

Symposium: Cyclic AMP Regulation of Fuel Metabolism during Exercise
Chairperson: Warren K. Palmer

Introduction to the symposium: cyclic AMP regulation of fuel metabolism during exercise
Warren K. Palmer 523

Effect of exercise on cardiac cyclic AMP
Warren K. Palmer 525

Cyclic AMP regulation of fuel metabolism during exercise: regulation of adipose tissue lipolysis during exercise
Raymond E. Shepherd and Michael D. Bah 531

Role of the alkaline TG lipase in regulating intramuscular TG content
L. B. Oscai, J. Gorski, W. C. Miller, and W. K. Palmer 539

Role of cyclic AMP and inorganic phosphate in the regulation of muscle glycogenolysis during exercise
Dimitrios Chasiotis 545

Role of cyclic AMP in regulation of hepatic glucose production during exercise
William W. Winder 551

Original Investigations

The role of selectivity in the pathogenesis of eating problems in ballet dancers
Linda H. Hamilton, J. Brooks-Gunn, Michelle P. Warren, and William G. Hamilton 560

Influence of sodium bicarbonate on sprint performance: relationship to dosage
Craig A. Horswill, David L. Costill, William J. Fink, Michael G. Flynn, John P. Kirwan, Joel B. Mitchell, and Joseph A. Houmard 566

Maximal exercise responses to acute and chronic beta-adrenergic blockade in healthy male subjects
Sarah M. Jilka, Michael J. Joyner, Joyce M. Nittolo, Joni K. Kalis, J. Andrew Taylor, Timothy G. Lohman, and Jack H. Wilmore 570

Prediction of peak oxygen consumption in obstructive airway disease
Donald A. Mahler and Andrew Harver 574

The effects of sufentanil on the hemodynamic and respiratory response to exercise
Denham S. Ward and Gary J. Nitti 579

Trunk muscle strength in athletes
Eva Andersson, Leif Swärd, and Alf Thorstensson 587

Growth of segment principal moments of inertia between four and twenty years
Robert K. Jensen and George Nassas 594

Regression analysis in biologic research: sample size and statistical power
D. S. Sharp and P. M. Gahlinger 605

Letter to the Editor-in-Chief

Letter to the Editor-in-Chief
Raul Artal 611

Response
Albert M. Paolone and Mona Shangold 612

KEY WORD INDEX FOR VOLUME 20, 1988

Acclimation 155, S169
Accumulation 228
Acid-base balance 566
Activation history and single motor units 391
Active hyperemia S124
Activity re-call 14
Acute 260
Adaptations 260
Adenylate cyclase 531
Adolescence 116
Adrenal hormones S152
Aerobic power 374, 474
Aerobic training 439
Age 155
Age of menarche 369
Aging 155, 260
Alkaline TG lipase 539
Alkalosis 566
Anaerobic power 374
Androgens S152
Anemia 272
Ankle 506
Ankle weights 265
Anthropometry 338, 594
Antihypertensive medications 447
Appetite 222
Area-elastic 396
Area-elastic surfaces 403
Arteriovenous oxygen difference 385
Athletes 172, 369, 587
Autoregulation S113

Ballet dancers 560
Baroreflexes S97
Beta-adrenergic blockade 570
Beta-adrenergic receptor 531
Bicarbonate dosage 566
Biomechanics 85, 167, 290
Blood 213
Blood doping 208
Blood flow S104, S171
Blood pressure 255, 265, 579, S97, S185
Blood transfusion 208
Bodybuilders S132
Body composition 44, 310, 338
Body density 66
Body insulation S177
Body temperature 155, S171, S193

Calcaneal eversion 515
Calcium 122
Caloric expenditure 249
Calorimeter 331
Carbohydrates 34, 110, 249
Cardiac output 385, 463, S185
Cardiovascular adaptations S146
Cardiovascular system S97, S119, S169
Catecholamines 228, 255, 579
Cell surface markers 276
Central circulatory function 136
Chinese athletes 560
Chondroitin sulfate proteoglycans 354
Circulation S119
Coagulation 439
Cold acclimation S193
Cold pressor test S185
Cold water stress S177
Computed tomography 93, 338
Concanavalin A lectin 354
Concentric 290
Connective tissue S162
Contractile properties 362
Control of breathing 579
Cooling S185
Coronary artery disease 455
Coronary artery disease risk factors 150
Coronary blood flow 126
Coronary heart disease 426
Cortisol 255
Creatine kinase 242, 255
Cross-correlation 285
Cross-talk 285
Cycle 1
Cycle ergometer 479
Cycle ergometry 566, 574
Cyclic AMP 525, 531, 539, 545
Cyclic AMP phosphodiesterase 531

Deformations 396, 403
Delayed menarche 369
Delayed menarche in athletes 560
Dental injury 202
Diaphragm 195
Diet 34, 249
Diet-induced thermogenesis 44
Direct calorimetry 331
Discriminant function analysis 501
Diving S177
Dog S104
Dyspnea 574

Eating problems 560
Eccentric 290
